Tabby Cat

16 Ct 1.83" x 2.72"

14 Ct 2.20" x 3.26"

11 Ct 2.81" x 4.17"

In-the-Hoop Finishing Instructions

Each set of ornaments has a special finishing file and instructions for finishing the designs as ornaments right in the standard 100mm x 100mm hoop. Please note that only the small size (the 16Ct ornaments) can be finished with the included file to allow the finishing file to fit within the hoop.

See a sample finishing instructions PDF file below...

Diamond Ornament Applique Finishing Instructions

MATERIALS REQUIRED

- 1 Fabric card drawing color as design—cut about the size of hoop
- 1 Hanging thread—1-0 or 1-2 D cut as you wish

Do the complete diamond design, leaving the loops. Load the [Diamond Applique](#) file on your machine. Load a color as you would like your ornament. Some birds look so like—start by adding some like the row of the window was to see. You could make a snow color as you like to see if you want to add a touch.

You will make a snow color at the end for all stitching. The machine will stop at the end of the row with the row in position as you would like to see. You will make a snow color at the end.

Design Files

- 16Ct-Cardinal 16Ct
- 16Ct-Clouds 16Ct
- 16Ct-Head 16Ct

In the Hoop Finishing File:

- 16Ct-Diamond Applique

IMPORTANT

The Diamond Applique file is designed to fit only the 16Ct design file. If you want to use the Diamond Applique file for other sizes, you must convert the file to the correct size. You can do this by using the software.

Step 1—Hanging Thread

Cut a piece of ribbon about 7" long. Fold in half and position at top of oval shape. (Use spray adhesive to hold ribbon or cord in position, if necessary).

Using thread the color you want the outer Satin Stitches border to be, stitch Color Step 1 (blue on your machine) to attach hanging thread. Machine will stop. Do not change thread.

Color Step 1

Running Stitches to attach hanging thread

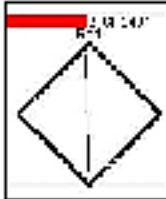

Step 2—Running Stitches for Applique

Start machine again, stitching Color Step 2. Running Stitches will stitch around the diamond shape. When machine stops, remove hoop from machine. *Very carefully*, trim background fabric away from stitched line. Trim as close to the running stitches as possible without cutting the actual stitches. Also *carefully* trim the cord or ribbon hanger, right beneath the Running Stitch shape where it covers the stitched design area. After trimming is complete, replace hoop in embroidery unit and start stitching again.

Color Step 2

Running Stitches to position hanger and trimming

Satin Stitches Border to attach Color Step 1

Step 3—Satin Stitch Border

Cut a piece of felt about the size of the hoop for easy handling. Position underneath hoop and gently hold felt in place as you start the machine stitching again.

The outer Satin Stitches Border will now be stitched around the diamond shape, covering the previously stitched Running Stitches.

Step 4—Using pinking shears, trim felt about 1/4" away from Satin Stitch border, around the diamond shape.
