

Size It!

Stand-Alone Embroidery Sizing Software

Embrace embroidery designs big and small with new Amazing Designs **Size It!** This easy-to-use sizing program can increase designs for large projects or make them smaller to fit your embroidery hoop. **Size It!** has more sizing abilities than most embroidery machines so you can create the projects you've always wanted to try. Use **Size It!** on its own, or add it to Letter It! or Monogram It! for unique lettering options of all sizes.

Features

- Increase design size up to 150% or decrease as much as 50%
- Enjoy free-hand sizing with handles, or easily achieve precise results by typing in exact sizes or percentages
- Density is no problem with automatic stitch recalculation for resized designs
- Sew efficiently by grouping colors
- Re-sequence objects and remove colorstops
- Create the perfect embroidery by rotating, merging, and recoloring designs
- Print templates for precise design placement
- Easily view your designs as thumbnails, including .ZIP files
- Works as a stand-alone program **OR** integrates with Letter It and Monogram It. No platform program required.
