

EMBROIDERY MACHINE STANDS

Machine Stands for all Brother PR, Baby Lock & Persona Machines

HOOP TECH was the DESIGNER and ORIGINAL producer of the machine stands for the PR-600 machines. The rugged design, stability and ease of assembly has made it a standard in the industry. Features include, a large shelf, height adjustable framing gage support, lock down brackets to securely attach the machine to the stand, easy rolling casters and leveling pads on outrigger brackets for added stability. The heavy duty stand is all steel construction with a durable powder coat finish and is made right here in the United States.

Janome MB-4 Stand

CAP FRAMING WORK STATION

Hoop Tech Framing Gage Stand / Work Station

The Hoop Tech Framing Gage Work Station is the perfect tool for the embroidery shop where floor space is at a premium. The stand footprint is less than 4 square feet but you get a stable work station that holds your caps, backing, cap frames and is easily height adjustable to make it comfortable for all sizes of operators. The heavy duty welded construction gives you added stability when stretching a difficult cap with the Hoop Tech T-Bar Framing gage. With over 5 square feet of shelf space, there's plenty of room to hold your cap framing supplies.

Assembles with just
7/16" wrenches

Easy to adjust cross
bar for comfortable
working height
adjustment
