Stitch 'n' Turn Instructions

1. Hoop a single layer of Mesh Cut-Away stabilizer.
2. Spray the stabilizer lightly with Temporary Adhesive Spray.
3. Stitch the first color, which is the "Placement Guide Stitch". Use a thread color that blends with your fabric choice.
4. Place a piece of fabric right side up onto the Mesh Stabilizer, being sure to cover the "Placement Guide Stitch". **See Photo 1**

Note: If using fabric with pile, lightly spray a piece of Wash-Away topping with Temporary Adhesive Spray. Place the topping sprayed side down onto the fabric.
5. Attach the hoop to the machine and stitch the second color, which is the "Basting Stitch" to keep fabric in place.
6. Embroider all but the last color of the design. **See Photo 2.**
7. Remove the hoop from the machine, but DO NOT remove the fabric from the hoop.
8. Clip all jump threads.
9. Gently tear away excess Wash-Away topping. (Do not wet to remove at this time).
10. Place another piece of fabric right side down directly over the first piece. If desired, pin or tape at corners to secure.
11. Reattach the hoop to the machine and stitch the final color change (through both layers of fabric). Use a thread color that blends with your fabric color. For photography purposes we've purposely used a contrasting thread.
12. Remove the hoop from the machine and the fabric from the hoop.
13. Using embroidery scissors, carefully cut out the stitch 'n' turn project close to the stitching line. Cut around the stitches at the opening to create a tab. **See Photo 3.**
14. Clip curves and corners as needed.
15. Turn the project right side out. Use a chopstick to turn out corners and curves.
16. Stuff with polyester stuffing. **Hint:** To speed up the stuffing process cut the bottom off of a cone shaped cup (such as the ones from a water cooler) and use it as a funnel to insert the stuffing. **See Photo 4.**
17. Fold tabs in and slip stitch the slit closed with hand needle or insert a piece of fusible webbing and fuse closed.

Supplies:

- 2 pieces of fabric one inch larger (in all dimensions) than chosen design
- Mesh Cut-Away Stabilizer
- Wash-Away topping (if using fabric with pile such as Minkee® or terrycloth)
- Temporary Adhesive Spray
- Embroidery Thread
- Polyester bobbin thread
- Embroidery machine
- Polyester stuffing
- Hand needle or fusible webbing

Photo 1

Photo 2

For Extra Fun:

- Add definition stitching with a sewing machine or by hand.
- Stitch ribbon bows or embellishments on your projects to dress them up. Please keep in mind the age of the person to be using them then plan (or omit) add-ons accordingly.

NOTE: Some designs may contain a Ribbon Placement Guide. This is an optional feature that allows you to turn your designs into ornaments if you so wish. To create a hanging loop, after stitching the Ribbon Placement Guide, create a loop out of 1/4" ribbon and place it within the guide with loop facing into the center of the project and tails of the ribbon facing out. Lightly spray ribbon with Temporary Adhesive Spray to hold in place.

NOTE: Design pictured is for instructional purposes and may not be included in this collection.

Photo 3

Photo 4

1. Hoop your fabric and backing.
2. Sew the pattern/placement. **PHOTO 1**
3. Place a piece of appliqué fabric over the pattern/placement so that it is completely covered.
4. Sew the trim stitch/tackdown.
5. Carefully cut away the excess appliqué fabric. **PHOTO 2**
6. Sew the remainder of the design and repeat for any remaining pieces. **PHOTO 3**
